PROFESSIONAL SUMMARY

Highly motivated Full-Stack Developer with a strong focus on modern frontend technologies (React, TypeScript, Tailwind CSS) and secure backend architecture. Passionate about building real-world solutions from scratch, as demonstrated by my recent SaaS project (Zenda). Eager to join a dynamic team where I can apply my skills in semantic HTML, modern CSS, and JavaScript to deliver high-quality, responsive web applications.

TECHNICAL SKILLS

- **Frontend:** HTML5 (Semantic), CSS3, JavaScript (ES6+), React.js, TypeScript, Tailwind CSS, Vite.
- **Backend:** Node.js, Express.js, REST APIs, Zod (validation).
- **Databases:** PostgreSQL, Prisma ORM.
- **Tools & DevOps:** Git, GitHub, Vercel, Render, Neon, Docker, JWT Authentication.

FEATURED PROJECTS

Zenda – SaaS Management Platform | *React, TypeScript, Node.js, PostgreSQL*

- Developed a complete Software-as-a-Service (SaaS) platform designed to help small businesses manage sales, inventory, and expenses.
- Built a highly responsive frontend using **React, TypeScript, and Tailwind CSS**, strictly following semantic HTML best practices.
- Implemented a secure backend with **Node.js/Express** and **PostgreSQL**, using Prisma for database management.
- Engineered a robust authentication system using JWT and httpOnly cookies.
- Architected a Multi-Tenant database structure, ensuring 100% data isolation between different businesses.
- **Live Demo:** https://zenda-83pw.vercel.app

Maria Graça – Responsive Portfolio Website | *HTML, Modern CSS, JavaScript*

- Designed and developed a clean, modern, and fully responsive personal portfolio website.
- Focused heavily on modern CSS layouts (Flexbox/Grid) and semantic HTML to ensure excellent accessibility and SEO.
- **Live Demo:** https://mariagraca.netlify.app/

EDUCATION

- **Self-Taught Full-Stack Developer** (2025 - Present)

- *Continuously learning and building real-world projects.*
